01-17-08 09:28 PM - Post# 1345410 In response to bowtie454 I just put power windows into my '89 Suburban from an '86 and there were no relays involved. Plug and play, I took the inside harness out and plugged it into my fuse block, cut holes for the front door wires to pass through, hooked them up, and they work fine.

where is the power window relay located?? - Chevy Message ...

Blue Sea is a go-to brand for the Tacoma; however, other brands are on the market and will also suffice. When filling out a fuse box, you'll need to add hot leads and grounds, which does requires some previous understanding of wiring. You might want to leave a job like that to the professionals. Figure 4. Fuse box diagram for 2001 Tacoma.

(A less common problem with your car power windows would be a bad window motor (window regulators and wiring issues are rarely the problem). Please contact us if you need help diagnosing your power controlled windows problem.

Switch Doctor | World's Only Power Window Switch Specialist

The problem is the power window regulator needs to be reset. This usually happens after a window motor is replaced but perhaps the battery voltage was so low the system needs to be reset. If the auto up and down function as well as the "finger pinch" function are not working, a reset usually solves the problem.
