Understand the concepts behind the software: This text's presentation of database concepts offers information on how to create a database management system-regardless of the specific software involved. Overall, this presentation helps students absorb the process of database creation and implementation, rather than simply show them how to complete the steps in one program.

Kroenke & Auer, Database Concepts | Pearson

The Art Course database discussed in Chapter 1 is a good database to use for an in-class demo of the concepts in this chapter. The DBMS screenshots in Chapter 2 use that database as the example database. See the list, data and database files supplied, and use the following: Microsoft Access 2016:
