Rapt: Attention and the Focused Life by Winifred Gallagher ...

Paying rapt attention whether to a trout stream or a novel , a do it yourself project or a prayer, increases your capacity for concentration, expands your inner boundaries and lifts your spirits, but more important simply makes you feel that life is worth living." The above quotes encompass the thesis of this book.

Rapt: Attention and the Focused Life - Kindle edition by ...

"Rapt" is about living a better life through directing our attention, in various forms and on various levels. It's aptly labeled as "psychology/self-help." Gallagher strings together different studies to lead the reader through various ways they could improve their lives, but never explicitly labeling various behaviors as rules or tips.

Rapt : Attention and the Focused Life - Walmart.com ...

Common wisdom aside, attention research is full of surprises. Focusing on upbeat emotions such as hope and kindness literally, not just figuratively, expands your world, just as dwelling on negative feelings shrinks it. Contrary to the messages from our wired, workaholic culture, multitasking is a myth.

Rapt: Attention and the Focused Life | Winifred Gallagher ...

RAPT is on target in confirming the link between controlled attentional focus and some forms of meditation. Achieving intense focus or flow-like states can enhance cognitive performance, and perhaps (as the author suggests) a more rewarding life.

RAPT: Attention and focus - Interactive Metronome

On very rare occasions I finish reading a book which I know I will return to more than once, and Winifred Gallagher's "Rapt: Attention and the Focused Life" is one of these. Her central thesis is that in order to make the most of life and what you do during it, the quality of experience is based on how you attend to what you are doing, thinking and being.

Rapt Attention And The Focused Life Summary Essay

— Winifred Gallagher, Rapt: Attention and the Focused Life. tags: attention, brain, focus, neurology, 2 likes. Like "Once out of your cradle, you don't focus on the world in the abstract, perceiving things for the first time, but in synchrony with your accumulated knowledge, which enriches and helps define your experience, as well as ...

Rapt Quotes by Winifred Gallagher - Goodreads

Just thinking about paying attention affects your brain, revving it up for the actual experience. Depending on how the competition for your attention is biased, whether by you or your neurons, you can have very different experiences of the same scene. All day long, you focus on what seems most important and suppress what doesn't.
