Compass Publishing

Speed refers to how quickly a child can read. It has a huge impact on his or her fluency. To increase their speed when reading, children need to be able to recognize and decode words effortlessly. To work on speed, I use an oldie but goodie exercise (one I remember doing in my high school Spanish class): Around the World.

Reading Fluency: Speed, Accuracy, Expression, Oh My ...

Reading fluency is the speed and accuracy of decoding words. Reading comprehension is the ability to understand what you are reading. A student is considered a proficient reader when reading fluency and reading comprehension are at grade level. Achieving the proper balance between reading fluency and reading comprehension is important.

Reading Fluency vs Reading Comprehension | Bits of Wisdom ...

Fluency is defined as the ability to read with speed, accuracy, and proper expression. In order to understand what they read, children must be able to read fluently whether they are reading aloud or silently. When reading aloud, fluent readers read in phrases and add intonation appropriately. Their reading is smooth and has expression.

Fluency | Reading Rockets

Fluency is the ability to read with accuracy, proper speed, and meaningful expression. Fluency is also a significant indicator of reading comprehension. When children can read fluently, it means that instead of using brain power for decoding, they can turn their attention to the meaning of the text. And it gets even better.
