When the air conditioner in your 1996 Saab 900 starts blowing hot air, you likely have a freon leak. Recharging the freon in your AC system is an inexpensive and easy first step to restoring the cooling capacity of your A/C system. Most refrigerants include a leak sealer that will seal small leaks in addition to filling the R134a refrigerant.

...

The Saab 900 is a mid-sized automobile which was produced by Saab from 1978 until 1998 in two generations. The first generation from 1978 to 1994 is known as the "classic" and the generation from 1994 to 1998 is known as the "new generation". The "classic" Saab 900 was based on the Saab 99 chassis, though with a longer front end to meet U.S. frontal crash regulations.
