Introduction to the Music Business | edX

But record labels now pretty much are only interested in 360 deals, so the record industry has now widened and become the music industry. You post would be true of the old business models but now the music industry and record industry are becoming one of the same.

The Difference Between the Music Industry & The Recording ...

The recording industry is a subsection of the music industry that deals specifically with the production (i.e. recording) and subsequent promotion and distribution of music. Record labels are massive stakeholders in the music industry, and in America they're represented by the Recording Industry Association of America (RIAA). With that out of the way, let's get down to business: Brief history of sound recording

How the Recording Industry Works (History, Jobs, & Functions)

Week 2 of the Recording & Record Labels module considers questions about education and the music business (and includes an interview with a music school dean), reviews the history of audio formats with an on-location visit to a popular music archive, and outlines the differences between major and independent record labels.

The music industry also got smarter. Madonna—not to be fooled again—had seemingly leaked tracks off American Life posted on KaZaA ahead of the 2003 album's release, but when users downloaded and played the files, all they heard was the singer saying "What the fuck do you think you're doing?" Nevertheless, she was outsmarted: A few days after Madonna's prank, a hacker took over ...

Napster forever changed the music industry—and Radiohead's ...

To make something clear from the start—music is not a business. Music is an art form. A business has formed around music, but music can (and does) happen whether or not anyone ever makes money at it. However, if you are a musician in our culture, and you desire to do music as a full-time career, you need to learn to approach music as a business—to see yourself and your music through a ...
